Legislative Update

By: Sally Corley

The Senate concurred in the House's changes and the General Fund Budget was sent to the Governor yesterday. It contained an increased rate of \$850 for SEIB, and we are very grateful for the increase. The Senate plans to consider the Education Budget in committee when they return from Spring Break on Tuesday, April 5th. The ETF currently reflects a 4% pay raise for most education employees, fully funds retirement, fully funds health insurance, and creates new teaching positions. In other news, a bill was introduced this week in the House by Rep. Phillip Pettus to combine PEEHIP and SEIB under a new Board called the Public Employee Health Insurance Board. Reminder: This coming week is legislative Spring Break, so we will not have a legislative update next week.

Below is a brief description of some of the bills we are tracking this session. Please know these weekly legislative updates are meant to keep you informed of legislation that may affect you, and are provided in an effort to demonstrate the SEIB's commitment to our goal of providing the best health care coverage available at an affordable rate for our members.

SB125 - FY17 GENERAL FUND BUDGET:

The biggest item on our legislative agenda each year is the general fund budget. As a refresher, the SEIB is funded through two main sources: the employer share (the State of Alabama) and the employee share (premiums, savings from copays and deductibles). The SEIB's funding from the State (the employer share) can be demonstrated by a simple equation:

$$\text{STATE RATE} \times \text{NUMBER OF FULL TIME EMPLOYEES} = \text{TOTAL STATE FUNDING.}$$

These funds are used to cover the health care costs of all employees, retirees, COBRAs, beneficiaries and dependents. As the number of full-time state employees continues to decrease, so does our overall funding. If the general fund agencies experience a cut in funding, the SEIB will experience a similar cut. But the SEIB will retain much of the same expenses because a large number of employees retire and continue coverage under our plan.

FY17: The Legislature increased SEIB's rate from \$825 to \$850, and encourages the Board not to increase out of pocket costs for members. A rate of \$850 is a great improvement, but it does not fully fund SEIB's request of \$875. While the legislature intends for there to be no increased out of pocket expenses, we cannot guarantee that at a partially-funded rate of \$850. The Board meets in late summer to determine the rates for the upcoming year, and many factors will be considered in that decision. We are grateful for the increased rate.

What this means for you: This is the one perk for state employees in the General Fund Budget. This increase to SEIB's rate helps all employees equally, and it benefits active and retired employees alike. A rate of \$850 greatly reduces the need (if any) for an increase to your out of pocket expenses. Hopefully the budget will be enacted soon with a rate of \$850 for SEIB.

Don't forget that if you qualify for "other employer health insurance coverage" through a spouse or another job, please contact your [SEIB Advisor](#) today to find out about savings opportunities that are immediately available to you.
